Electrical Engineer  
Location: San Diego, CA

GEPermit (Global Environmental Permitting, Inc) – San Diego, CA 92123

GEPermit is a certified woman-owned environmental permitting and consulting firm, founded in San Diego, CA. Since 2009, GEPemt has been predominately operating in California and throughout the United States. We offer a full range of land-use and environmental consulting services for the private and public sector. GEPemt supports large global engineering firms primarily in industrial and utility projects throughout Southern California.

We are seeking a self-driven and detail-oriented entry level professional for our San Diego, Los Angeles, and Fountain Valley project locations.

Essential Duties and Responsibilities

- Applies technical knowledge to analyze, investigate and resolve assigned engineering problems.
- Performs functional testing and troubleshooting of equipment and systems in assigned area by utilizing standard engineering and scientific principles.
- Tasks include electrical power, instrumentation, and control system design and analysis.
- Electronics modeling and assembly
- Ability to read and understand electronic schematics (especially analog electronics) and manufacturing drawings
- Reviews plans and prepares or reviews technical specifications according to the contract documents; prepares submittal drawings, packages. Supports Senior Project Managers.
- Coordinates and prepares deliverables (calculations, specifications and drawings) for submittal to clients.

Position Requirements

- Entry Level up to 3 years of experience with a Bachelor’s degree or two or more years of experience with a Master’s degree.
- Desire to gain experience with electrical design for commercial, industrial, government, utility facilities

Other Requirements

- Excellent communication, computer, documentation, presentation, and interpersonal skills are required, as well as the ability to work both independently and as part of a team.
- Must be able to work within a team to accomplish organizational goals and have strong organization and time management skills with the ability to meet priorities and deadlines.
- Must be able to organize thoughts and display a high level of professionalism and integrity.
- A valid California Class C driver’s license, which must be maintained throughout employment, is required at time of appointment, or the ability to arrange necessary and timely transportation for field travel. Employees may be required to use their own vehicle.
- Must be able to pass a Motor Vehicle Report (no DUI's in the last 7 years).
- Must be able to pass a criminal background check and drug test.
