Instructions for Plan B:

Plan B: Students can only choose Plan B under the following circumstances:

- The student is already in Plan A but for some compelling reasons they cannot continue under Plan A. The thesis advisor will decide whether a student can or cannot switch to Plan B by consulting with the Graduate Advisor.
- The student cannot find a professor who is willing to advise them. In this case, the student must get the signature of three professors including all professors in their declared area of specialization indicating that they are not available or willing to advise the student.

Students are required to take eighteen **18 units** from the depth area, **9 units** of breadth courses and **3 units** of EE798.

Note-1: The core courses of each area of specialization are listed in the Course Selection Guideline.

Note-2: Plan B students are not allowed to take courses from outside the ECE Department.

Note-3: Plan B students can enroll in the project (EE798) only after completing 21 units and having a POS on file.
