Research Assistant Opportunity

The Safe-D University Transportation Center is currently seeking a **full-time/part-time research assistant** to join our research team. This paid position is focusing on transportation data analytics. The successful applicant will have the opportunity to work on a **USDOT funded project on traffic safety analysis using "big data".**

Experience with some or all of the following is desired:

- R Programming, Python
- Machine learning, Cluster analysis
- Big data analytics
- ArcGIS/Geocoding
- Database development
- Web development & Design

To apply or obtain additional information, please email your CV to **Dr. Arash Jahangiri** at AJahangiri@sdsu.edu
