

Federal Bureau of Investigation

OFFERING AN EXCITING CAREER OPPORTUNITY

Electronics Technician Trainee

The FBI Electronics Technician (ET) Program is currently seeking qualified applicants to fill positions throughout the United States.

FBI Electronics Technician trainees help install and maintain the Department of Justice’s land mobile radio systems, data network systems, electronic security systems, and provide tactical support within all FBI field offices and facilities, as well as those of other DOJ agencies, as necessary.

Two ways to qualify:

1. Applicants should possess at least six electronics education credit hours with labs in any of the following: DC circuits, AC circuits, solid-state devices, digital circuits, integrated circuits, microprocessors, microcontrollers and programmable logic controllers.

-or-

2. Two years’ work experience in Radio Systems, Data Networks, or Physical Security Systems

In addition to technical knowledge, all applicants are required to successfully complete the following:

- Drug Screening
- Polygraph
- Physical Exam
- Background Investigation

To find more information go to www.FBIJOBS.GOV
