Department Graduate Advisor for the Master of Science in Electrical Engineering Program:

Approved Denied

Graduate Advisor's signature: _____ Date: _____

Comments:

Procedure for Enrolling in COMPE / EE 798

1. Define your project in consultation with your project advisor (a full-time Department faculty member).
2. Decide on a topic and title for your project.
3. Write an outline proposal of the project that includes goals, design activities and level of effort.
4. Take this form and the proposal to your project advisor for approving signature. Project advisor's approval implies that the facilities and faculty time are available to support the project.
5. Once signed by your project advisor, bring this form along with the proposal to the Department Graduate Advisor, who oversees the Master of Science in Electrical Engineering Program, for approving signature.

The Department Graduate Advisor's approval states that all requirements have been met and recommendation for the student to take on the research project is granted.

6. Submit the signed COMPE/EE 798 form and proposal with recommendations to the department office.
